

Final seminar - Level IV

For the certified degree in "Feeltone Sound Massage Sound Therapy" three sound massages, sound treatments or sound meditations will be documented after the III. advanced training course.

You will receive protocol templates for your own practice documentation, three of which you can select and submit no later than 14 days before the final seminar. From these templates, it becomes clear which topics or questions are to be deepened again.

Questions about the practical design can also be submitted with the documentation, so that these questions can be given time in the final seminar.

In the final seminar, participants will talk about their treatments and reflect on their experiences. It is about bringing together the different possibilities and deepening the knowledge through experience and exchange.

At the end all participants will conduct a sound meditation in Block III or IV and give a sound massage with the body monochord or on the sound table, which will be evaluated together.

Upon successful completion, you will receive the certificate in "Feeltone Sound Massage Sound Therapy".

Aim of the training

The aim of the training is to introduce the participants to the feeltone Sound Massage - Sound Therapy "and to enable them to use the monochord and the sound professionally, consciously and responsibly.
